Everything we need to finish your website

Your website is built — 11 pages covering all seven divisions. Two things remain before it can go live: we need you to confirm that every service listed is one INTEGRI can actually deliver, and we need a handful of certificates and details that only you can supply.

Nothing is published until you have confirmed it is true. That is the whole point of this document.

How to complete this form

This PDF is fillable. Open it in Adobe Acrobat Reader (free) or Preview on a Mac, click the boxes and type in the fields, then save and email it back to us.

If you would rather work in a spreadsheet, use the Excel version we sent alongside it — same questions, easier to fill in on a phone.

Already confirmed — no action needed

SECTION A

Your 56 services

These seven divisions come from your own logo and are correct. The services listed under each one were drafted by us from what a South African firm in each field normally offers — none were supplied by INTEGRi. For each line, tick TRUE if INTEGRi can deliver it today, or FALSE if it should come off the website. Use the note column to reword anything that is close but not quite right.
